Confirm the service behind the advertised rate

Staples lists color copies from $0.82 per page on its copy-services page. That is an advertised starting price, not a verified national self-service tariff or a completed quote for your file. Confirm store, paper, sides, quantity, finishing, tax and pickup or delivery.

Record: store or delivery ZIP _____ color pages _____ paper _____ sides _____

Before approving the job

Confirm PDF page size, spelling, page order, legibility, margins and the intended number of complete sets. Verify the exact paper and printed sides. Separate file review and approval from production and shipping transit.

55printing defaults to Print as is. If you want review first, choose the free human review and digital PDF proof option; allow 4-8 business hours for review plus your approval time. A PDF proof is not a physical color sample.
